TWINKLING TWENTIETH ISSUE

Every year since she was a little girl, Deb had watched the Sound of Music. She'd been waiting her entire life to see the homeland of the beloved vonTrapp family and Austria was just one train stop away from the LEGO Summit ...

Deb got her way this time (Mark would say this happens more often than not) and the happy couple traveled to Europe taking in the sights of Prague and the CR/German borderlands before Mark had to get to work playing with LEGO bricks.

Old Town Square Prague -  
Astronomical Clock

Bohemian Switzerland National  
Park - Sandstone Arch

Saxon Switzerland National  
Park - Bastei Bridge

While Mark “worked,” Deb explored Prague on her own ... only taking the train in the wrong direction once. When the summit was over, the reunited couple traveled onto Austria ...

Vienna, Austria

Graz, Austria

Hallstatt, Austria

In the end, all of Deb's dreams came true. The last day was spent tracing the steps of the vonTrapp Family on the Frau Maria Bike Tour.
